**DYNAMITERS ASK
PARDON OF
PRESIDENT**

Formal Petition Filed Today
by Attorney for Convicted
Men Before Department of
Justice.

(By Leased Wire to Evening Herald.)
Washington, March 17.—Application for pardon by sixteen of the labor leaders convicted in the dynamite conspiracy cases at Indianapolis was filed today with the department of justice by the men's attorney, Elijah N. Kohn of Chicago. The petition alleged that the men were innocent and that Judge Albert Anderson, who presided over the federal court in Indianapolis, was a party to the conviction and did not give them a fair trial.

Mr. Zolling announced that at least 25 members of the house and several senators will appear before the department of the president in behalf of the convicted men.

Those applying for pardons were: Frank M. Ryan, Michael J. Young, Edward Smith, Paul J. Morris, Frank J. Higgins, J. E. Munsey, Frank Mooney, John S. Berry, Peter J. Smith, George Anderson, William E. Reddin, Frank H. Painter, Henry W. Leightner, Ernest W. Brown, Eugene A. Clancy, Michael J. Hannan, Wm. Shupe and Michael J. Canzano.

INFANTRY TO BE
WITHDRAWN AT ONCE

State Will Depend on Cavalry
Stationed at Central Points
to Control Situation in the
Danger Zone.

(By Leased Wire to Evening Herald.)
Denver, March 17.—The plans of "Mother" Jones as to her future activities were the cause of a row which was resumed today. The interest of all parties to the Colorado labor controversy. Mrs. Jones had not yet announced when she would make her contemplated return to the strike district, where according to the statement of Adjutant General John Chase, she would be met by officers of the United Mine Workers and no definite arrangements had been made regarding the future movements of the aged strike leader, but she reiterated that she would certainly return to Trinidad soon.

Governor Ammons today refused to make any definite statement as to the future policy of the state toward the former military prisoner whose anticipated release yesterday brought to a sensational termination her efforts to secure freedom by writ of habeas corpus.

Mother Jones remained at her hotel during the early hours of the day.

**ALL INFANTRY REMOVED
FROM STRIKE ZONE**

Denver, March 17.—Governor E. M. Ammons announced today that orders had been given to withdraw all infantry troops from the Colorado strike regions and to concentrate the cavalry at central points where it will be available to aid the army authorities in keeping order. The governor expected that all the infantry would be removed by the first of next week. The remaining mounted guardsmen, about 225 in number, he said, would be stationed at Trinidad, Walsenburg, Ludlow and Aguilar. While not placed directly under the orders of the local authorities these troops will be instructed to assist in every possible way.

"This is a step in the direction of restoring control to the civil authorities," Governor Ammons explained. "The situation in the strike zone is so quiet now as it can be expected to be for some months. This state cannot afford to patrol this district indefinitely and we are taking measures to turn matters over to the local officers as promptly as possible."

**FIVE MINUTE CURE
IF STOMACH IS BAD**

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—something so valuable you might injure it with drastic drugs.

Pape's Diaphrane is noted for its speed in giving relief, its harmlessness, its certain, soothing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach troubles has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should get something wrong with their stomach, if what they eat lays like lead, ferments and sours and forms acid, causes heartburn, dizziness and nervousness, or if you are unable to eat, Pape's Diaphrane comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in relieving the worst stomach disorders is a revelation to those who try it.

**CARS MUST STOP ON
NEAR SIDE OF CROSSING.**

Complaints that the cars of the Highland line were being run over the crossing at Second street and Central avenue led Chief of Police McMullin to notify the trolley management today that all cars traveling southward on Central avenue must stop on the near side at the second street crossing before crossing, and the trolleyman must make sure that his way is clear before proceeding.

Several days ago an automobile was struck by a car at the crossing, and that was said to have been only one of a large number of narrow escapes from serious accidents at that point. Mayor Melrose called Chief McMullin's attention to a number of complaints made to him at that point, resulting of the council and Commission labor-wood was led to suggest that it would be a good thing to order the cars to stop on the near side of the crossing at all crossings. The near-side stop rule, he said, was in force in all the larger cities, and he thought Albuquerque should be one of the other municipalities in enforcing it.

Ten Big Gun Battleships
Equipped With Fifteen-
Inch Guns Included in Naval
Program.

ESTIMATES THIS YEAR
LARGEST ON RECORD

Winston Spencer Churchill
Presents Demands for 1914-
15 With Enormous Total of
\$257,000,000 for Warships.

(By Leased Wire to Evening Herald.)
London, March 17.—Great Britain will have ten of the new class of battleships in the water by the time any other nation in the world has two, declared Winston Spencer Churchill, first lord of the admiralty, in the house of commons today.

"All of these ships," he added, "will carry 15-inch guns, the best weapons ever possessed by the British navy and capable of hurling a projectile weighing a ton for a distance of twelve miles."

Four of these ships, which are presumably to be of the royal Sovereign type and the remainder of Elizabeth type.

The Queen Elizabeth, launched last October, was the first ship to mount 15-inch guns, of which she is to have ten. Her cost is estimated at about \$12,000,000. She uses oil for fuel exclusively.

The royal Sovereign, the first ship of an even more powerful type, has not yet been launched and no details as to her size or equipment have been made public.

The latest type of American dreadnaught is provided with twelve 14-inch guns.

A variant on the "naval holiday" suggestion was produced by Mr. Churchill.

In introducing the naval estimates for 1914-15, amounting to \$275,750,000, he said:

"Every delay, accidental or deliberate, by the most strongest power to England, will be matched by us."

Admitting that the naval estimates were the largest that had even been submitted to the house, Mr. Churchill said the bill by making the prediction that in the absence of any new departure, the estimates for 1915-16 would be substantially lower than the present one, which show an increase of \$12,000,000 over those of last year.

Mr. Churchill reiterated that it was the policy of Great Britain to complete eight battle squadrons by the time Germany had established five, without calculating ships on foreign stations. He explained that the development of the foreign fleet had not been so rapid as had been anticipated, owing to the difficulties in manning the vessels. Great Britain therefore had been enabled to postpone the completion of her eighth squadron, which now consists of only four battleships. The increased expenditure, he said, was largely attributable to the change to oil for fuel in the establishment of a naval flying corps and to the increased pay of the bluejackets.

**Foraker Thinks
Canal Tolls
Are Right**

Once Prominent Ohio Stand-
patter Says Repeal Policy
Worse Than "Watchful
Waiting."

(By Leased Wire to Evening Herald.)
Cleveland, O., March 17.—In speaking against the proposed bill to repeal the act granting exemption from Panama tolls to American coastwise shipping, former Senator Joseph B. Foraker, before the chamber of commerce here today, went into an exhaustive review of all diplomatic acts and numerous economic theories which concerned the Panama canal since the original Clayton-Bulwer treaty. The greater part of his address was devoted to the existing Hay-Pauncefote treaty. He contended that nothing prohibited coastwise shipping from American coastwise shipping from canal tolls. Mr. Foraker said in part:

"If we cannot favor our coastwise shipping, with which no foreign shipping can compete, of course, no such favor can be allowed to our ships engaged in foreign trade and as a result no advantage whatever arises to our shipping of any class out of this great national work, the erection of the Panama canal."

"On the other hand, the exercise of this right to show favor to our own ships in the use of our own property would go far towards obviating the necessity of resorting to schedules, against which there is so much prejudice."

"The dispatches from Washington tell of the expenditure of many thousands of dollars in support of a propaganda started by the Carnegie endowment for international peace to help secure the repeal of the exemption act in the interest of international peace. This is an even greater blunder than the policy of 'watchful waiting'."

Metz is suing to recover for the damages alleged to have been sustained by him when the city put the Baretas ditch out of commission.

His suit was filed after the supreme court ruled that the city had no right to condemn the ditch in the first place.

The Metz suit was the first called for trial when Judge H. F. Reynolds started to dispose of the docket of the March term of court this morning. Metz was the only witness put on the stand this morning, and he was still under cross-examination when the court recessed this afternoon. W. C. Isaacson and H. B. Cornell are Metz's lawyers and the city is represented by City Attorney John C. Lewis.

**IF BACKACHY OR
KIDNEYS BOTHER**

Eat Less Meat, Also Take Glass of Salt Before Eating Breakfast.

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, then you suffer from back-ache, sick headache, dizziness, stomach and joint aches, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water, also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in preventing kidney trouble when it is only trouble.
